RENOVATIONS, ALTERATIONS, AND EXPANSION OF EXISTING TRANSPORTATION CENTER INCLUDING SURFACE PARKING LOT, OUTDOOR CANOPY, AND WAITING AREAS FOR PACE BUS PICK-UP AND DROP-OFF STATIONS AS FOLLOWS:

1. EXPANSION OF EXISTING SURFACE PARKING LOT AREA TO INCLUDE ADJACENT 0.76 ACRE SITE. NEW SITE WILL HAVE RELOCATED BUS ENTRY DRIVE, ADDITIONAL PARKING, SITE LIGHTING, AND LANDSCAPING.

2. DEMOLITION OF EXISTING BUILDINGS, PARKING LOTS, AND MISCELLANEOUS UTILITIES AND STRUCTURES RELATED TO ABOVE WORK, INCLUDING A ONE-STORY POST OFFICE BUILDING AND PORTIONS OF THE OUTDOOR CANOPY.

3. DEMOLITION OF EXISTING RESTROOM AND UTILITY KIOSK TO BE REPLACED WITH NEW FULLY ADA ACCESSIBLE SHELTER BUILDING, INCLUDING WAITING ROOM, PUBLIC RESTROOMS, DRIVER FACILITIES, AND UTILITY FUNCTIONS.

4. NEW HIGH PERFORMANCE PAINT COATINGS ON EXISTING OUTDOOR CANOPY STRUCTURAL FRAMEWORK.

NOTE: CONTRACTOR SHALL OBTAIN AND VERIFY ALL DIMENSIONS AND CONDITIONS AT JOB SITE AND BE FULLY RESPONSIBLE FOR SAME.

SCHAUMBURG, IL 60173

ENGINEERS - ARCHITECTS
GLOBETROTTERS ENGINEERING CORPORATION
300 S. WACKER DRIVE
CHICAGO, IL 60606
www.GEC-GROUP.com
312-922-6400

REV: 01 Date: 02/03/15 SHEET NO: G001
1. PROVIDE ALL CORRECT INFORMATION IN ACCORDANCE WITH THE APPLICABLE BUILDING CODES AND ORDINANCES OF THE TOWN OF SPAUNBURG.
2. THE OWNER WILL NOT ACCEPT REQUESTS FOR ADDITIONAL COSTS FOR WORK CONDITIONS WHICH CAUSE REASONS ABSENT FROM THE DRAWINGS AND SPECIFICATIONS.
3. REFER TO PROJECT SPECIFICATIONS FOR GENERAL CONDITIONS AND CONSTRUCTION THAT APPLY TO THIS PROJECT.
4. OVERALL DIMENSIONS OF EXISTING CONDITIONS, INCLUDING BETWEEN STRUCTURES, ARE TO BE FURNISHED TO NEW CONSTRUCTION ARE APPROXIMATE AND HAVE BEEN OBTAINED FROM LEGACY DRAWINGS AS AVAILABLE AND ARE PROVIDED FOR INFORMATION ONLY. THEY MUST BE CONFIRMED IN ALL SIZES.
5. CHECK AND VERIFY ALL CONDITIONS AND DIMENSIONS FOR ACCURACY AND PEACEABILITY AND MAKE ADJUSTMENTS FOR THE SAME. DO NOT SCALE THESE DRAWINGS FOR CONSTRUCTION. NOTIFY THE OWNER OF ANY DISCREPANCIES BETWEEN FIELD CONDITIONS AND THE CONTRACT DOCUMENTS AND DO NOT PROCEED WITH THE WORK UNTIL THE DISCREPANCIES ARE RESOLVED.
6. PRIOR TO COMPLETION OF CONSTRUCTION, THE CONTRACTOR AND ANY SUBCONTRACTOR SHALL FURNISH THE CONTRACTOR THE ACTUAL LOCATION AND ELEVATION OF RAISED OR SUNK STRUCTURES IN RELATION TO THE PROJECT FACILITIES AND THE WORKING SCHEDULES OF THE UTILITY COMPANIES. EACH CONTRACTOR AND SUBCONTRACTOR PERFORMING UNDERGROUND WORK SHALL NOTIFY THE UTILITY ONE DAY IN ADVANCE OR BY 90 MINUTES AT LEAST 24 HOURS PRIOR TO START OF WORK.
7. VERIFY ALL CONDITIONS, DIMENSIONS, AND GRADING AT JOB SITE PRIOR TO COMMENCING WORK.
8. CERTIFY SIZE AND LOCATION OF ALL OPENINGS FOR MECHANICAL EQUIPMENT AND WORK WITH ALL TRADES INVOLVED.
9. ALL DIMENSIONS ON PLANS UNLESS OTHERWISE NOTED ARE FROM FACE OF GYPSPAN TO FACE OF INTERIOR FACE OF FIBER-REINFORCED CONCRETE TO FACE OF EXTERIOR FASAD PANELS. UNLESS NOTED OTHERWISE LOCATE SIZE OF OPENINGS TO BE ACOUSTICALLY MATCHED TO PROJECT REQUIREMENTS.
10. PERFORM TEMPORARY HEAT AND ELECTRICAL POWER DURING CONSTRUCTION.
11. ALL TRADES ARE AWARE THAT INFORMATION SUPPLIED FOR DIES WILL BE TO THEIR OWN MAY OCULI IN OTHER PORTIONS OF THE CONTRACT DOCUMENTS. REFER TO LAMINATED WALL STRUCTURAL, MATERIALS, ELECTRICAL, FIRE PROTECTION AND PLUMBING DRAWINGS FOR ADDITIONAL GENERAL NOTES, ABBREVIATIONS AND SYMBOLS.
12. PROVIDE SUFFICIENT ATTACHMENT AND IN-LINE JOINERY TO SEAL JOINTS BETWEEN CONSTRUCTION PARTS. ADDITIONAL JOINT SEALANTS TO BE USED IN AREAS WHERE JOINTS BETWEEN CONSTRUCTION PARTS WERE NOT THE WORK OF THE CONTRACTOR.
13. REFER TO CONSTRUCTION SAYINGS AND RESTRICTIONS AS REQUIRED FOR WORK CONDITIONS.
14. UNLESS OTHERWISE INDICATED ON THESE DRAWINGS OR IN THE PROJECT MANUAL AS BEING SPECIFIED, ALL ITEMS MANUFACTURED AND INSTALLATION OF THE SAME ARE PART OF THE CONTRACT DEFINED BY THESE DRAWINGS.
15. ACCEPT SLOPE AND COMPARE RESPONSIBILITY FOR JOB CONDITIONS. CONFORM TO SAFETY REGULATIONS AND RESTRICTIONS AS REQUIRED FOR WORKER AND PEDESTRIAN SAFETY AND PROTECTION DURING THE COURSE OF CONSTRUCTION OF THIS PROJECT. PROVIDE SUFFICIENT ATTACHMENT AND IN-LINE JOINERY TO SEAL JOINTS BETWEEN CONSTRUCTION PARTS. ADDITIONAL JOINT SEALANTS TO BE USED IN AREAS WHERE JOINTS BETWEEN CONSTRUCTION PARTS WERE NOT THE WORK OF THE CONTRACTOR. CONSTRUCTION CONDITIONS WHICH CAN BE REASONABLY ASCERTAINED FROM THE DRAWINGS AND PROJECT REQUIREMENTS WHERE NOT SPECIFIED.
16. ABSESSO-MATERIALS AND TRANSIT OR OTHER INDUSTRY RECOGNIZED HAZARDOUS MATERIALS OR TOXIC SUBSTANCES SHALL NOT BE USED ON THIS PROJECT.

NOTE: CONTRACTOR SHALL OBTAIN AND VERIFY ALL DIMENSIONS AND CONDITIONS AT JOB SITE AND BE FULLY RESPONSIBLE FOR SAME.
NOTE: CONTRACTOR SHALL OBTAIN AND VERIFY ALL DIMENSIONS AND CONDITIONS AT JOB SITE AND BE FULLY RESPONSIBLE FOR SAME.

CONTRACTOR SHALL COORDINATE ACTIONS TO BE TAKEN AFTER ITEMS INDICATED AS OWNER ITEMS SHALL BE PROTECTED AND MADE REMOVE ALL WALLS AND PARTITIONS SCHEDULED TO BE REMOVED PATCHED, REPAIRED AND FINISHED TO MATCH EXISTING BY GENERAL PRIOR TO ANY DEMOLITION OPERATION SHORE AND PROTECT ADJACENT ALL TIMES DURING DEMOLITION.

insulate window shades, blinds, and window coverings prepare substrate to receive new work. specifications for extent of demolition to prepare each fixtures and all incidental accessories prior to demolition. verify location and condition of walls, ceilings, floors, insulation / air barrier / vapor barrier. existing patch with materials, finishes, and colors to match existing. existing finishes to "like new" appearance for new.

install all insulated mechanical, or electrical spaces and occupied spaces shall be acoustically isolated from the occupied spaces wherever maintenance minimum spacing of 1". do not block exits and egress pathways. maintain at least two exits out of all areas in accordance with local jurisdiction at all times. prevent prior to any demolition operation shore and protect adjacent building areas to retain structural integrity and stability of the portions of the building to remain until new work is fully in place.

all walls, doors, and partitions scheduled to be removed must be removed prior to new construction, excluding but not limited to electrical, mechanical, and plumbing inadvertence and all conduit, wiring, and piping. coordinate with mechanical, electrical, and plumbing drawings for proper capping. decoupling and disconnect of items. prevent shores and ducting no longer required to support tee, branch, riser, or termination point. remain all chores from site on a daily basis and dispose of in a manner in accordance with local codes. prevent to the fullest extent possible remove materials to provide new construction space. new construction work shall be performed at or near the existing building to remain.

remove modular materials (tiles, panels) to a module joint or seam. items indicated as owner items shall be protected and made secure prior to demolition. items shall be protected and stored on-site until such time they may be removed.

contractor shall coordinate actions to be taken after removal of doors and frames. items shall not be exposed to unless written authorization is provided. remove a workmanship of new construction project shall be maintained at the job site as a minimum. contractor shall coordinate delivery of items.

remove remains removed for reinstallation at new locations unless noted otherwise.

fire stropping systems, the materials used therein, and adjacent partition construction shall be installed in accordance with all requirements and manufacturer recommendations and requirements.

all recessed cabinets, panels, boxes located in fire rated walls shall be installed as to maintain the fire rated construction.

provide additional framing, drywall, or blocking as required to maintain integrity.

provide new window assemblies as required. see mechanical drawings and specifications for fire rated window requirements.

mechanical and electrical requirements.

1. all insulated mechanical, or electrical spaces and occupied spaces shall be acoustically isolated from the occupied spaces wherever maintenance minimum spacing of 1".
2. provide shores and egress pathways. maintain at least two exits out of all areas in accordance with local jurisdiction at all times. prevent prior to any demolition operation shore and protect adjacent building areas to retain structural integrity and stability of the portions of the building to remain until new work is fully in place.
3. prevent shores and ducting no longer required to support tee, branch, riser, or termination point. remain all chores from site on a daily basis and dispose of in a manner in accordance with local codes. prevent to the fullest extent possible remove materials to provide new construction space. new construction work shall be performed at or near the existing building to remain.
4. all walls, doors, and partitions scheduled to be removed must be removed prior to new construction, excluding but not limited to electrical, mechanical, and plumbing inadvertence and all conduit, wiring, and piping. coordinate with mechanical, electrical, and plumbing drawings for proper capping. decoupling and disconnect of items. prevent shores and ducting no longer required to support tee, branch, riser, or termination point. remain all chores from site on a daily basis and dispose of in a manner in accordance with local codes. prevent to the fullest extent possible remove materials to provide new construction space. new construction work shall be performed at or near the existing building to remain.

fire stropping systems, the materials used therein, and adjacent partition construction shall be installed in accordance with all requirements and manufacturer recommendations and requirements.

all recessed cabinets, panels, boxes located in fire rated walls shall be installed as to maintain the fire rated construction.

provide additional framing, drywall, or blocking as required to maintain integrity.

provide new window assemblies as required. see mechanical drawings and specifications for fire rated window requirements.

mechanical and electrical requirements.

1. all insulated mechanical, or electrical spaces and occupied spaces shall be acoustically isolated from the occupied spaces wherever maintenance minimum spacing of 1".
2. provide shores and egress pathways. maintain at least two exits out of all areas in accordance with local jurisdiction at all times. prevent prior to any demolition operation shore and protect adjacent building areas to retain structural integrity and stability of the portions of the building to remain until new work is fully in place.
3. prevent shores and ducting no longer required to support tee, branch, riser, or termination point. remain all chores from site on a daily basis and dispose of in a manner in accordance with local codes. prevent to the fullest extent possible remove materials to provide new construction space. new construction work shall be performed at or near the existing building to remain.
4. all walls, doors, and partitions scheduled to be removed must be removed prior to new construction, excluding but not limited to electrical, mechanical, and plumbing inadvertence and all conduit, wiring, and piping. coordinate with mechanical, electrical, and plumbing drawings for proper capping. decoupling and disconnect of items. prevent shores and ducting no longer required to support tee, branch, riser, or termination point. remain all chores from site on a daily basis and dispose of in a manner in accordance with local codes. prevent to the fullest extent possible remove materials to provide new construction space. new construction work shall be performed at or near the existing building to remain.

AD100 1 SITE DEMOLITION PLAN

SCALE: 1/16" = 1'-0"

DRAWING NOTES - DEMOLITION

1. Site Review: Contractor shall consult with Owner's Representative regarding the full extent of existing utilities. Coordinate with Owner's Representative for the full extent of existing utilities and existing fence line. Coordinate and align the demolition with the Owner's Representative.

2. Utilities: The Owner shall provide all utility locations and coordinate with the Owner's Representative. The Owner shall ensure that all utility lines are properly labeled and marked. The Contractor shall be responsible for all utility work, including coordination with utility providers. The Contractor shall ensure that all utility connections are properly made and that all utility lines are properly marked.

3. Construction Documents: The Contractor shall refer to the construction documents for the full extent of existing utilities and existing fence line. The Contractor shall coordinate with the Owner's Representative for the full extent of existing utilities and existing fence line. The Contractor shall ensure that all utility work is properly coordinated with the Owner's Representative.

4. Site Access: The Contractor shall ensure that all site access is properly coordinated with the Owner's Representative. The Contractor shall ensure that all site access is properly marked and that all site access is properly maintained.

5. Site Security: The Contractor shall ensure that all site security is properly coordinated with the Owner's Representative. The Contractor shall ensure that all site security is properly marked and that all site security is properly maintained.

6. Site Management: The Contractor shall ensure that all site management is properly coordinated with the Owner's Representative. The Contractor shall ensure that all site management is properly marked and that all site management is properly maintained.

7. Site Clean-Up: The Contractor shall ensure that all site clean-up is properly coordinated with the Owner's Representative. The Contractor shall ensure that all site clean-up is properly marked and that all site clean-up is properly maintained.

8. Site Close-Out: The Contractor shall ensure that all site close-out is properly coordinated with the Owner's Representative. The Contractor shall ensure that all site close-out is properly marked and that all site close-out is properly maintained.

9. Site System: The Contractor shall ensure that all site system is properly coordinated with the Owner's Representative. The Contractor shall ensure that all site system is properly marked and that all site system is properly maintained.

10. Site Equipment: The Contractor shall ensure that all site equipment is properly coordinated with the Owner's Representative. The Contractor shall ensure that all site equipment is properly marked and that all site equipment is properly maintained.

11. Site Plantings: The Contractor shall ensure that all site plantings is properly coordinated with the Owner's Representative. The Contractor shall ensure that all site plantings is properly marked and that all site plantings is properly maintained.

12. Site Signage: The Contractor shall ensure that all site signage is properly coordinated with the Owner's Representative. The Contractor shall ensure that all site signage is properly marked and that all site signage is properly maintained.

13. Site Security: The Contractor shall ensure that all site security is properly coordinated with the Owner's Representative. The Contractor shall ensure that all site security is properly marked and that all site security is properly maintained.

14. Site Management: The Contractor shall ensure that all site management is properly coordinated with the Owner's Representative. The Contractor shall ensure that all site management is properly marked and that all site management is properly maintained.

15. Site Close-Out: The Contractor shall ensure that all site close-out is properly coordinated with the Owner's Representative. The Contractor shall ensure that all site close-out is properly marked and that all site close-out is properly maintained.
EXISTING PRIMARY BUS CANOPY ROOFS AND STRUCTURE TO REMAIN BEYOND THIS POINT.

AD100 1 SITE DEMOLITION PLAN AT ENTRY ARCADE

TAG DESCRIPTION

ASD1 DEMOLISH AND REMOVE EXISTING CONCRETE WALK AND SUBBASE LAYERS. COORDINATE AND ALIGN DEMOLITION WITH EXISTING JOINTS TO THE FULLEST EXTENT POSSIBLE.

ASD2 DEMOLISH AND REMOVE EXISTING CANOPY SUPPORT COLUMNS, FOUNDATIONS, AND FOOTINGS. COORDINATE WITH CANOPY ROOF PLAN AND FOUNDATION PLANS FOR STRUCTURE ABOVE.

ASD6 DEMOLISH AND REMOVE EXISTING BITUMINOUS AND CONCRETE PAVEMENT AND SUBBASE LAYERS. SELECT REMOVAL OF CONCRETE CURBS ONLY AS SHOWN ON CIVIL DRAWINGS.

ASD10 REFER TO LANDSCAPE DRAWINGS FOR FULL EXTENT OF TREE AND PLANTING REMOVAL. DO NOT REMOVE EXISTING TREES UNLESS EXITLY STATED ON LANDSCAPE DRAWINGS.

ASD11 COMPLETELY REMOVE EXISTING PLANTINGS, ROOTS, AND GROUNDCOVER. EXISTING LIGHTED BOLLARDS AND CONCRETE PEDESTALS TO REMAIN UNLESS NOTED OTHERWISE.

ASD14 DETACH AND REMOVE INGROUND POST MOUNTED WASTEBASKET. REMOVE 2 STEEL POSTS TO 6 INCHES MINIMUM BELOW GRADE LEVEL.

ASD24 DISCONNECT AND REMOVE EXISTING LIGHTED POSTS AND CONCRETE BASE. SALVAGE FIXTURES FOR REINSTALLATION IN LOCATIONS INDICATED.

ITEMS TO BE DEMOLISHED/REMOVED (PER NOTES).

ITEMS TO BE DEMOLISHED/REMOVED (PER NOTES).
WORK AT NEW BUILDING TO BE COMPLETED PRIOR TO DEMOLITION OF EXISTING WASHROOM KIOSK. COORDINATE WITH CONSTRUCTION DRAWINGS. PROTECT NEW BUILDING DURING DEMOLITION OF KIOSK.

AREA OF MATERIAL TO BE DEMOLISHED (MATERIAL INDICATED IN NOTES).

ITEMS TO BE DEMOLISHED/REMOVED (PER NOTES).

NOTE: CONTRACTOR SHALL OBTAIN AND VERIFY ALL DIMENSIONS AND CONDITIONS AT JOB SITE AND BE FULLY RESPONSIBLE FOR SAME.
EXISTING PRIMARY CANOPY ROOFS AND STRUCTURE TO REMAIN BEYOND THIS POINT

NOTE: CONTRACTOR SHALL OBTAIN AND VERIFY ALL DIMENSIONS AND CONDITIONS AT JOB SITE AND BE FULLY RESPONSIBLE FOR SAME.
