Spring 2024 - Network Map - Northwest

Pace Plus 50 - Ridership Concept - Regional Network Map

This is not a plan. This map is an illustration of how Pace might redesign its suburban services, if it had the resources to increase service by over 50%, and if Pace focused only on frequent and direct service in the areas where the most people might ride the bus. This map does not include or impact Pace's Dial-A-Ride services, Vanpool services, special event services, or fixed-route trips that only operate on school days.
