

Appendix C - Access Change from 81 Locations - Isochrone Maps

- in 60 minutes or less
- using transit and walking only
- in each of the three future network concepts
- compared to how far they can go with existing transit service
- starting from 83 prominent locations throughout Pace's service area.

Transit service in these maps includes Pace, CTA and Metra service.
The 60 minute travel time includes time spent:

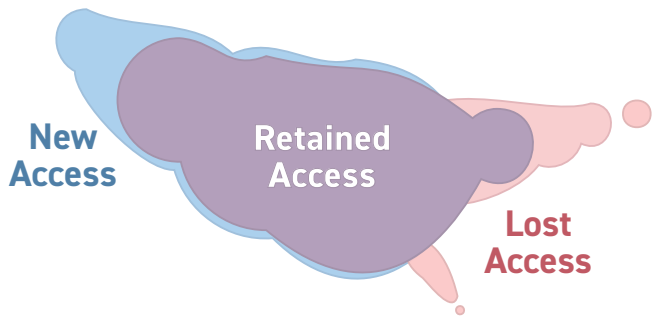

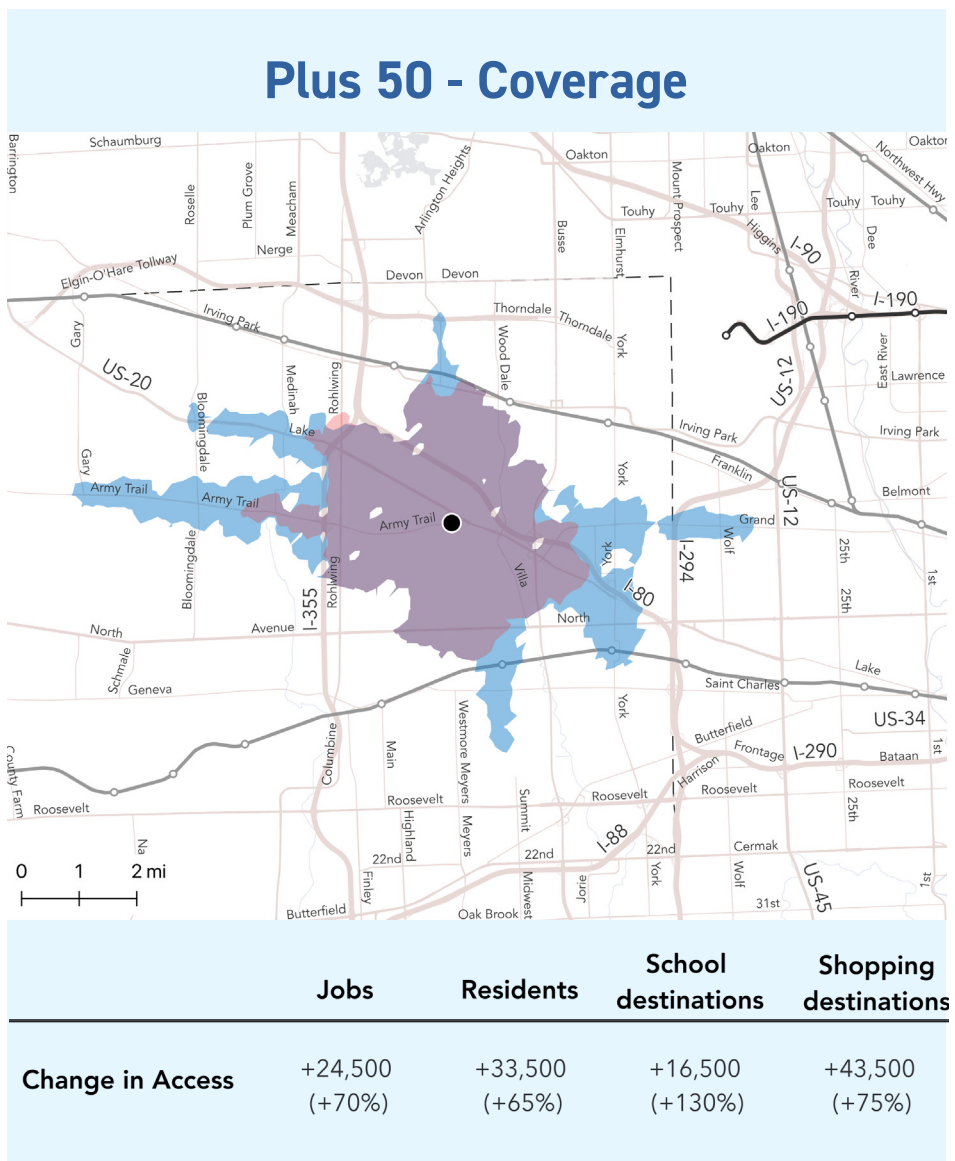

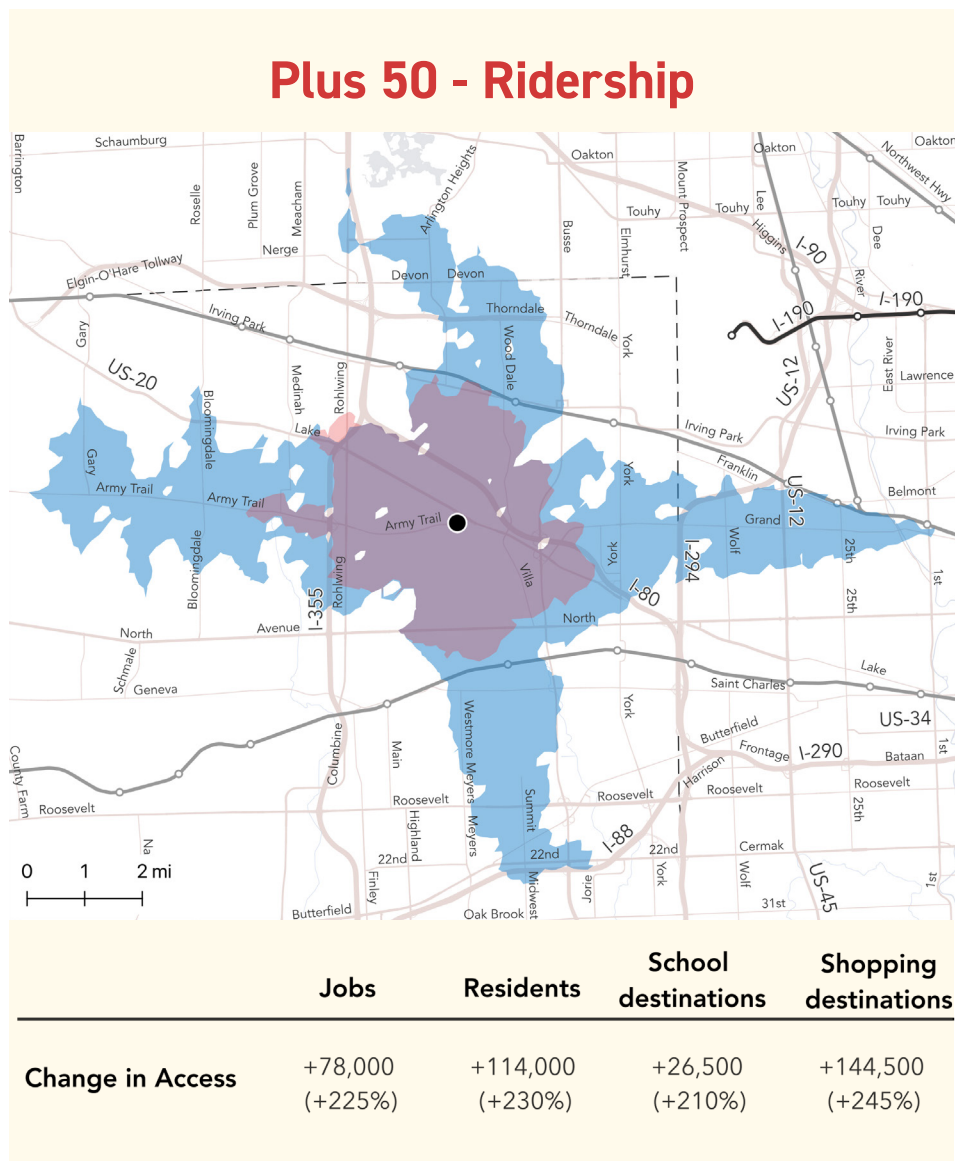

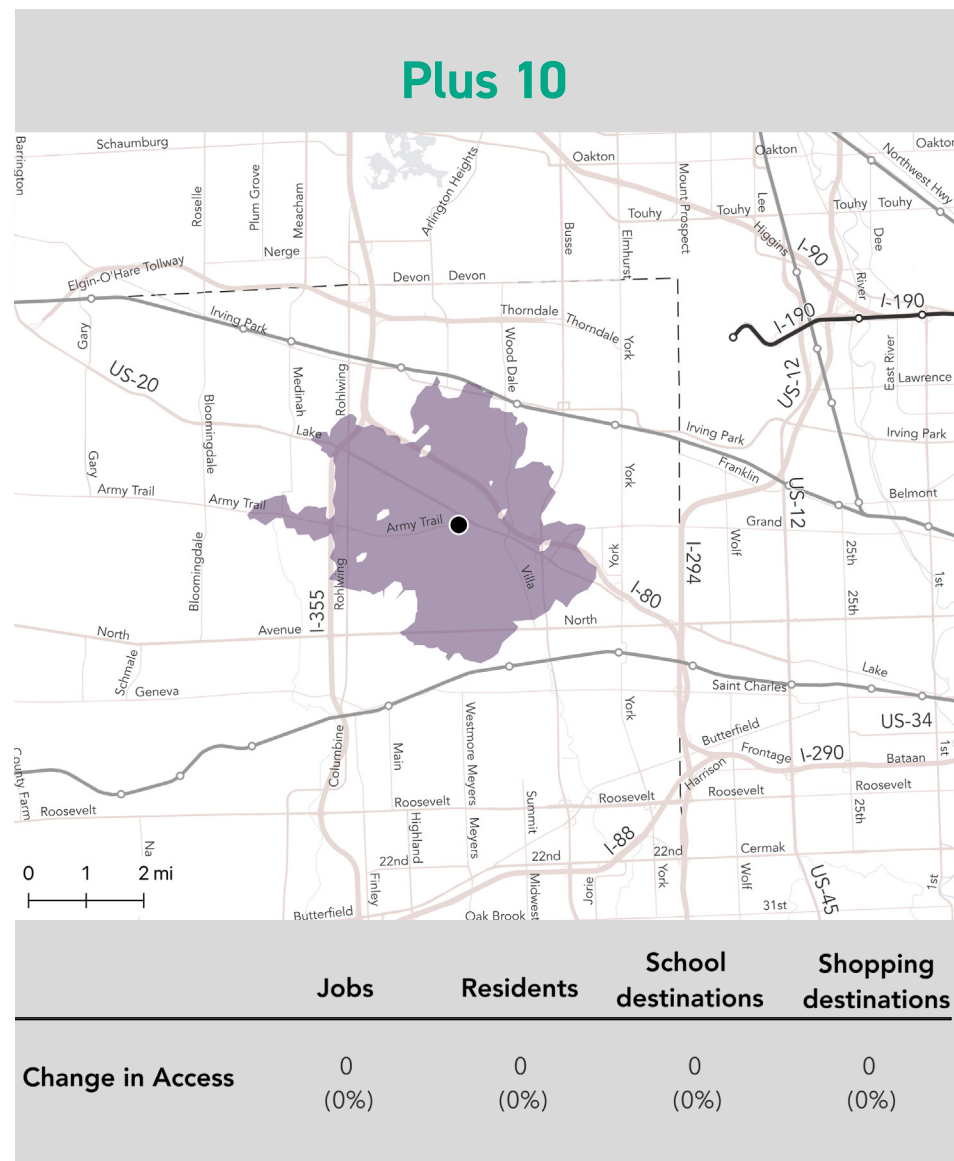

- **walking** to and from the nearest stop, at the beginning and end of the trip.
- **waiting**, based on how often the bus or train comes by, and whether any transfers are required
- **riding**, based on average bus speeds in different areas and average speeds on each rail line.
